### Minesweeper Update

Just thought you might like to know that my personal best for Expert Level Minesweeper is now ninety nine seconds. This goes to show how much time I have been spending at this computer, typing 'The Half-Blood Prince'. To those who suggest that I might get on even faster if I stopped taking Minesweeper breaks, I shall turn a deaf ear. It's either Minesweeper or smoking, I can't write if I have to give up both.
